MESSAGE FROM THE ORGANISING CHAIRMAN

Firstly, I would like to welcome all friends and colleagues to our 17th Malaysian Society of Transplantation meeting. This current theme "Walk the Talk" was coined jointly with my esteemed organizing committee: Dr Chandramalar T. Santhirathelagan, Dr Hirman Ismail and Dr Muhammed Anis Abd. Wahab. I would like to congratulate them for their hardwork in putting together an excellent scientific programme, which I hoped would benefit each and every participant in a more practical way. I would like to extend my appreciation and thank you to all the faculty members who had sacrificed their time and energy to share their invaluable experiences with us.

Transplantation programme had been started in our country for many years now. However, despite the increase in absolute number of cases throughout the years, the numbers of transplantation remains rather low; both are deceased and living donations.

We have chosen Kuala Lumpur as our venue this time; where we hoped that more people would be able to participate in our scientific meeting, come together, and exchange ideas and thoughts. We hoped to unite as a team to achieve greater heights in transplantation. It is time to "Walk the Talk".

For the fourth time, we will be holding a run, Race Against Time: Run For Life 4.0 on Sunday 25th of May 2014. Engaging public in organ donation awareness and education is an integral part. Healthy lifestyle is important and is our responsibility to showcase this to public. Health unites us all.

Yours sincerely,

Dr. Rafidah Dato' Abdullah
